pmis.ie/conference

Welcome to this year's event, we hope you not only walk away from it having gained valuable knowledge about Project Controls within your industry but also have made some new and valuable contacts. As Engineering/Construction professionals we can sometimes feel that a day away from the project is a day lost. However, as you will experience from today's event it is rather a day that will not only see you return to your project with new insights but perhaps also with solutions to unresolved problems.

There is never a good time to be away from the project but there is a right time and today was just that. The line-up of speakers is of a quality that can only but enhance your career through this CPD event and remember if you are a member of Engineers Ireland this event is registered with them.

Finally, on behalf of UNICEF Ireland we thank you for your support as all profit raised from today along with sponsorship fees will be donated to them.

All the best,
Raymond

Claire Gately

National Broadband Ireland

National Broadband Ireland - Centre of Excellence

NBI have implemented smart systems via smart people, resulting in a center of excellence. Broadly the presentation will focus on:

- The iterative and continuous improvement ethos
- Time management via Primavera P6 & Team Member - an Enterprise collaborative tool
- Scope & Geospatial design & management via ESRI ArcGIS & Survey 123 – providing live views of Build Maps to diversity of stakeholders
- Reporting & interpretation via Power BI

Claire Gately is experienced in the Telco, Construction, Transport, Engineering, IT, Mining & Agribusiness sectors. Projects range from local business initiatives to national infrastructure and international commodities. Providing opportunity to develop an enhanced ability to perceive & positively action both issues and opportunities.

Pat Burke

BAM Ireland

National Children's Hospital

The new NCH Project is the most significant capital investment project ever undertaken in healthcare in Ireland. When completed it will be central in the provision of acute pediatric healthcare, education, training and research in Ireland. As the project recently reached 70% completion this session will give an insight in to current progress on the project as well as the development and running of the project programme.

Pat is currently Planning Director for BAM Ireland on the National Children's Hospital project and has significant experience in delivering large scale capital projects in Pharma, Third Level and Commercial where he held roles as Client, Construction Manager, Project Manager and Design Manager throughout his career.

Geoff Roberts

Oracle

Innovation in Project Delivery, Make it Real

Innovation in Project delivery is ever present and the growth of Construction Tech is huge, leading to Organisations often not knowing what makes sense to adopt first understanding you cannot boil the ocean, as your delivery teams cannot cope with that level of change. This presentation will discuss how we have set up Innovation labs globally (UK being the closest), where organisations can see Construction tech in the field in a mock construction environment.

Geoff has more than 35 years of experience in all aspects of project management & project controls. He has been with Oracle CEGBU for 18 years and is currently Director, Innovation & Industry Strategy, providing strategic direction, domain expertise and insight around Asset Intensive industries

Nathan Lambert & Chris Woodbridge

RPC UK Ltd

Under the Bonnet of RPC's Integrated Unifier-Based Project Controls Solution at Dublin Airport

Following the successful implementation of Oracle's Primavera Unifier at daa, Nathan takes an in-depth, functional look at RPC's innovative project controls solution at Dublin Airport and how it was scoped, shaped and implemented. Starting with a Unifier-based Cost Management solution and building to incorporate Earned Value, Fund Management and NEC4 Contract Management, the solution eliminates manual data transfer and complex integrations between disparate tools, giving better visibility than ever before across all levels of the programme.

Nathan Lambert

With 15 years' experience in the design, development, implementation and support of software solutions, Nathan works with customers to understand their requirements and create user-friendly solutions within Primavera Unifier. In recent years his primary focus has been Contract Management – specifically NEC4 and FIDIC.

Chris Woodbridge

Chris has been working in project controls for 11 years. He fully understands the need for efficient, trusted and integrated solutions that offer compliance, control, collaborative working and reliable risk mitigation and has extensive experience working with clients to shape the solution that best meets their needs.

Catriona Riordan

Turner & Townsend

Sustainable Procurement in the Construction Industry

The climate emergency demands action. For the construction industry this begins with embedding sustainability goals in the procurement of programmes and projects. Now is the time to take action, ensuring programmes and projects set, and meet objectives and targets to address the climate and biodiversity crises. My presentation provides an overview of the drivers for using sustainable procurement, what to consider when embedding it in projects and programmes, and share practical examples.

Catriona is an Associate Director and a Sustainable Procurement Lead within Turner & Townsend's Contract Services team. She is an advocate of the role that procurement has to play in supporting organisations to achieve their sustainability objectives and targets to address the biodiversity and climate change crisis.

Ralph Montague

ArcDox

The Digital Transition of Construction in Ireland

Based on the “4 Pillars” of the report by the National BIM Council of Ireland entitled “Digital Transition of Ireland’s Construction Industry”, Ralph will cover key aspects such as “leadership”, “standards”, “competency” and “procurement”, required to embrace and adopt a “digital” way of working in the construction industry, to improve productivity, performance, output, safety and sustainability.

Specialist BIM (Building Information Modelling) consultant, board member of Construction IT Alliance (CITA), chair of the National Standards Authority of Ireland (NSAI) Technical Mirror Committee on BIM, and part-time lecturer at Trinity College Dublin School of Engineering Post-Graduate Diploma in Project Management.

Mark O'Connell &

Irish Water

Simon Taylor

th3rdcurve

Transforming Asset Management Capability at Irish Water

Irish Water are the biggest utility in Ireland, managing 1000s of projects. When it comes to leveraging innovation and growing asset management capability, they took a people first approach that is now continuing into one of the biggest technology transformations in their history.

Mark O'Connell and Simon Taylor will talk about the challenges and approaches that are mitigating complexity through the power of collaboration and how technology will change the way everyone in Irish Water works.

Mark O'Connell

Mark is a Civil Engineer with over 25 years' experience in large scale infrastructure projects. Mark joined Irish Water in 2014 and as Engineering Design Services Lead within Infrastructure Delivery has driven design standardisation across their portfolio as well as leading strategic business improvement initiatives.

Simon Taylor

Simon is a co-founder of th3rdcurve, he's held senior management and director roles at TfL, HS2 & Network Rail. He is also an ex board member for the Association for Project, a Visiting Research Fellow at Liverpool John Moores University, and co-author of the APM Guide on Planning Monitoring and Control.

Raymond Poole

PMIS

Project Controls - Science, Art or BS?

Project Controls is a much talked about topic, whether it relates to the Schedule, Costs, Resource Performance, Risks, etc. every company strives to improve in this regard. However, what exactly are we trying to achieve, is it to “Control” the project or simply to “Report” on retrospective data analysis of what has occurred. To truly manage our projects we must not only gather historical data but also prospectively manage the project. In this session we will objectively review these requirements.

Raymond is an accomplished international project manager and a highly educated individual with a MSc in Project & Program Management along with many other third level accolades. Over the past decade he has project managed the implementation of project controls systems for large global organisations across many sectors.

Niall Faris

th3rdcurve

Pandemic Projects: Delivering the Covid 19 Mega Laboratory

Th3rdcurve supported the UK Government on its COVID-19 testing programme. In response to the pandemic, we were engaged to lead the project management, PMO and controls for the rapid design and build of the UK's first megalab.

This session will include a case study of the UK's first Mega Lab, exploring the vital ingredients for the rapid delivery of complex programmes.

Niall is proud to be a co-founder of th3rdcurve, which has significant expertise in business transformation and project controls. He has a passion for leadership and supporting clients to improve their programme management and controls maturity. Flagship programmes include NY MTA Transformation & Covid-19 Task Force.

PMIS Conference Menu

Registration

Tea/Coffee/Breakfast Pastries

Morning Break

Tea/Coffee/Scones

Lunch

Soup

Salads

Mediterranean Quinoa Salad, Goat's Cheese, Rocket & Spiced

Nuts

Classic Caesar Salad with Parmesan & Pancetta

Sandwiches

Baked Ham & Honey Mustard on Malt Harvest

Smoked Salmon, Pickled Cucumber & Cream Cheese on

Wholemeal

Roasted Free Range Chicken, Tomato & Herb Aioli on Milk Pan

Beef, Onion Marmalade, Horseradish, Rocket Salad on Ciabatta

Chicken Tikka on Ciabatta

Desserts

Apple & Custard Crumble

Baked Vanilla Cheesecake, Blueberry Compote

PMIS Conference 2022

WESTBURY HOTEL, DUBLIN ▶ 29 SEPTEMBER 2022

EVENT MC: Raymond Poole

TIME	TOPIC	PRESENTER
08:30 - 09:10	Registration, Tea/Coffee & Pastries	
09:10 - 09:20	Welcome, Opening Address & Logistics	Raymond Poole PMIS
09:20 - 09:50	Innovation In Project Delivery, Make It Simple	Geoff Roberts Oracle
09:55 - 10:25	The Digital Transition Of Construction In Ireland	Ralph Montague ArcDox
10:30 - 11:00	Transforming Asset Management Capability At Irish Water	Mark O'Connell Irish Water & Simon Taylor th3rdcurve
11:00 - 11:15	Networking Break - Tea/Coffee & Scones	
11:15 - 11:45	National Broadband Ireland - Project Centre of Excellence	Claire Gately NBI
11:50 - 12:20	Pandemic Projects: Delivering The COVID19 Mega Laboratory	Niall Faris th3rdcurve
12:25 - 12:55	Under The Bonnet Of RPC's Integrated Unifier-Based Project Controls Solution At Dublin Airport (daa)	Nathan Lambert & Chris Woodbridge RPC UK
13:00 - 14:00	Networking Lunch - Sandwiches, Salad & Tea/Coffee	
14:00 - 14:30	Sustainable Procurement In The Construction Industry	Catriona Riordan Turner Townsend
14:35 - 15:05	National Children's Hospital	Pat Burke BAM Construction
15:10 - 15:40	Project Controls - Science, Art or BS?	Raymond Poole PMIS
15:40 - 16:00	Close-Out	UNICEF & Raymond Poole PMIS

RPC helps clients to create a holistic project controls environment in which programmes and projects can be delivered successfully and returns on investment be fully realised. We are proud to be part of the Oracle PartnerNetwork and Oracle NetSuite Alliance Partners, bringing our own unrivalled industry expertise together with the world-leading Oracle Primavera EPPM products we supply and implement. We're equally proud to be alliance partners with PMIS, working together to give clients access to our combined skills and solutions to support the full end-to-end project lifecycle. We work across all industry verticals with a particular focus on Construction & Engineering, Aerospace & Defence, Energy, Nuclear, Utilities, Oil & Gas and Transportation. We've trained 30,000 project management professionals and been engaged by over 3,000 clients in more than 25 countries to provide solutions to manage projects to the value of £30bn. Let us help you take your project controls to the next level.

PMIS

Training, Mentoring & Coaching Services
For Planning & Scheduling

Since 2002, PMIS has built a reputation of delivering successful implementation and transformation projects for their clients who have chosen to adopt a project management centric business approach.

As an Oracle Primavera Gold Partner we are ideally positioned to help your organisation not only implement and configure your Primavera system but also ensure your user community will be prepared to realise the full benefits of such systems, through a development programme we tailor to your specific requirements.

We have worked in many different sectors (Utilities, Oil & Gas, Defence, Engineering, etc.) across a widespread geographical territory (Ireland, UK, USA, South Africa, Azerbaijan, etc.) delivering such projects.

PMIS enable our clients to become self-sustaining by ensuring we develop an exit strategy from day one. We are more than happy to discuss your particular requirements in confidence, please contact us today at info@pmis.ie
